Summary

Experienced React Developer with a proven track record of success in remote and collaborative environments. Specializing in building robust web applications, I possess a deep understanding of front-end technologies and best practices. With a extensive experience leading projects for global clients, I am equipped to drive innovation and deliver high-quality solutions. Passionate about creating intuitive user experiences, I thrive in dynamic and fast-paced environments.

Skills

Next.js • React • TypeScript • JavaScript • Storybook • Tailwindcss • Redux

Work Experience

React Developer
Nov 2022 – present

ValueTank • Contract

Remote

Technologies: React • TypeScript • JavaScript • Redux • CSS

- Developed React components and interfaces for an in-house data governance project, ensuring alignment with project requirements and specifications.
- Implemented Storybook for comprehensive documentation of components, enhancing collaboration and understanding among team members and stakeholders.
- Integrated Redux for efficient state management, ensuring consistent data flow and facilitating seamless interactions within the application.
- Enforced industry best practices for performance and optimization, optimizing codebase and reducing unnecessary renders to enhance application speed and responsiveness.
- Utilized Cytoscape for intuitive graph visualization, enabling users to gain insights into complex data relationships and dependencies within the project.

React Developer
Jan 2020 – Nov 2022 • 2 yrs 10 mos

Wesionary Team • Full-time

Remote

Technologies: Next.js • React • TypeScript • JavaScript • Redux

- Contributed expertise to multiple Japan-based projects, leveraging cultural understanding and language skills to facilitate effective collaboration and communication.
- Spearheaded and led multiple projects, guiding teams through the entire project lifecycle from conception to delivery, ensuring adherence to timelines and quality standards.
- Coordinated with cross-functional teams for task division and assignment, optimizing resource allocation and maximizing team efficiency.
- Played a pivotal role as part of the management team, actively participating in decision-making processes, offering insights and recommendations based on project requirements and strategic objectives.
- Demonstrated proficiency in performance optimization across multiple projects, implementing strategies to enhance speed, efficiency, and overall user experience.

Senior React Developer

Mar 2022 – Sep 2022 • 6 mos

Seria Technology • Part-time

Remote

- Drove significant improvements in existing projects through code refactoring and the adoption of best practices
- Collaborated with cross-functional teams to define, design, and ship new features.
- Mentored and provided guidance to junior developers, fostering a culture of continuous learning and improvement.

React Developer

Jun 2021 – Mar 2022 • 9 mos

Concinnity Limited • Part-time

Remote

- Developed and maintained responsive web applications using React.js.
- Collaborated with designers and backend developers to create seamless user experiences.
- Implemented state management with Redux and optimized components for performance.

Projects

WesionaryTeam Company Website

Dec 2021 – Jan 2022 • 1 mo

2 coworkers

Technologies: Next.js • Firebase • React • Tailwind css

- Created company website for Wesionary Team

Co-workation

Nov 2021 – Feb 2022 • 3 mos

2 coworkers

Technologies: Next.js • React • Firebase • Styled-Components • JavaScript

Project Title: co-workation

- Collaborated closely with design and backend development teams to translate UI/UX designs into functional frontend components.
- Developed and maintained responsive and cross-browser compatible frontend features using styled components, React, and Next.js.
- Implemented efficient frontend solutions to optimize application performance and enhance user interactions.
- Worked closely with product managers to understand requirements and translate them into technical specifications.

TeamPlace

Mar 2020 – Oct 2021 • 1 yr 7 mos

5 coworkers

Technologies: Next.js • React • TypeScript • Firebase • Redux

Project Title: TeamPlace: Empowering Coworking in Japan

- Developed a fully responsive and intuitive user interface components using React for browsing and comparing coworking spaces.
- Implemented dynamic filtering and sorting functionalities to enhance user navigation.
- Created flexible pricing modules with React components, allowing users to choose between per-hour rates or aggregate passes.
- Integrated React components for seamless pass purchasing and check-in processes, focusing on usability and performance.
- Designed and implemented features for event creation, discovery, and participation within coworking spaces using React.
- Integrated React components with backend services for vacancy posting and application processes.
- Demonstrated proficiency in React development principles and methodologies, resulting in a highly responsive and user-centric application interface.

Education

Master's degree: Computer Science   Sep 2022 – Sep 2024 • 2 yrs

Lincoln University

Kathmandu, Nepal

Bachelor's degree: Computer Science and Information Technology   Aug 2014 – Aug 2018 • 4 yrs

Tribhuvan University

Kathmandu, Nepal

Certifications & Awards

Frontend Engineer in React Certificate - Mangtas   Mar 2023

Languages

English (Professional working proficiency)

Hindi (Full professional proficiency)
